

PRESIDENT CITES NEW COLLEGE SPIRIT IN OPENING ADDRESS TO FACULTY

College President Joseph C. Burke took note of the emergence of a new college spirit during his Tuesday opening address to faculty. It is a spirit, said the President, which is characterized by increased interaction and cooperation between departments; by a stronger feeling of identity with the College; by intradepartmental evaluation and restructuring of degree programs to meet changing student and societal needs; by renewed interest in teaching and the development of instructional innovations; by greater research activity despite the diminished availability of funding; by the quantity and quality of lectures, art exhibits, concerts and plays originating on campus; and by the growing range of public service activities which have benefited the North Country community. President Burke commended the faculty for "doing better with less."

"While taking pride in the past, we must live in the present and plan for the future," said the President. "The future of this College will be a composite of our view of what it ought to become and the outside influences which limit what we can become. It will be forged by the combination of our internal aspirations and actions and the external constrictions and constraints."

Dr. Burke predicted that the budget would remain the greatest external constraint during the next few years. "Though the fiscal crisis of the State appears to have receded, its after-effects will probably dictate continued austerity," he said in explaining the chances for acceptance of the College's request for additional funds. State University has recommended that the College receive \$262,000 for program improvements. Dr. Burke noted, however, that the recommendation "must now run the gauntlet of the Division of the Budget, the Governor's Office and the Legislature" where the probability of success for the total SUNY budget request, including the increase for Plattsburgh, is "dim," according to his informed sources. "Though the prospect of a steady state budget for 1977-78 hardly affords occasion for rejoicing," said Dr. Burke, "it is infinitely preferable to a new round of budget cuts." (Weekly will explain the College's 1977-78 budget request in greater detail next week).

President Burke concluded his address by setting a goal for the coming year: "I ask no less than that we strive, individually and collectively, to achieve the highest standards, to understand excellence, to expect excellence from ourselves and others, and to honor excellence wherever and in whatever form we find it."

ENTERING CLASS BEST ACADEMICALLY QUALIFIED IN COLLEGE'S HISTORY

A marked increase in applications for admission, combined with a lower quota for enrollment of new students, have combined to produce the best academically qualified entering class in the College's history. The College appears close to achieving its new student goal of 1,650 persons (925 freshmen, 625 transfers and 100 readmits). Entering freshmen, on the average, scored higher on Regents Scholarship qualifying examinations, ranked higher in high school class work, and maintained a mean high school average (86.4) higher than those maintained by any previous entering class. Transfer students entering the College this fall have a mean grade point average of 2.79 from their previous college work, compared with the 2.69 mean grade point average of last year's entering transfers.

President Burke referred to the increase in applications, the smaller entering class, and the higher academic quality of the new class in his address to faculty Tuesday. "The real magnet for good students is the quality of our programs and personnel and the quality of their life and treatment on campus," he stated. "Only through excellence in program and performance can we attract and hold the best and brightest of students."

NEW FACES INCLUDE LIBRARIAN, ASSOCIATE DEAN AND DIRECTOR OF HEALTH SERVICES

Among the 71 new full-time and part-time persons who have been added to the College's professional staff to fill vacancies created by retirements, resignations or leaves are a director of libraries, an associate dean of Professional and General Studies, and a director of student health services.

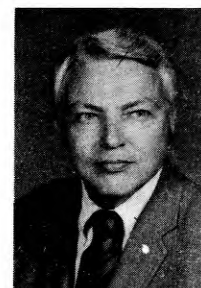

Robert E. Burton, former assistant director of public services for the SUNY Buffalo University Libraries, was appointed director of libraries at Plattsburgh on September 1. His appointment concludes a two-year search. Burton holds bachelor's and master's degrees from the University of Michigan, and directed branches of the University of Michigan Libraries for 13 years prior to his appointment at Buffalo in 1975.

Mr. Burton

Dr. Papke

Dr. Spear

Dr. Ross R. Papke has been appointed associate dean of professional and general studies, filling a vacancy created by the resignation last spring of Dale Nitzschke. Dr. Papke holds bachelor's and master's degrees and a doctorate in administration from the University of Wisconsin. He was most recently the director of the bureau of educational studies and services at Hofstra University, and has held previous administrative positions as superintendent of schools in Montello, Wisconsin, administrative

head of the University of Wisconsin Center at Richland, and member of the chancellor's staff at the University of Wisconsin Center System.

Dr. Merritt F. Spear will join the College October 4 as director of student health services. Dr. Spear, a Plattsburgh native, will leave his private practice at the Beaumont Health Care Clinic to accept the position. He has practiced medicine in the Plattsburgh area since 1965, and holds degrees from the University of Vermont and Albany Medical College. He was elected to a three-year term as Clinton County Coroner last November.

CAMPUS COMMUNITY MOURNS DEATH OF 'POLLY' FITZGERALD, ALICE LEWIS

The campus-community was saddened this summer by the deaths of Dr. Pauline Fitzgerald and Miss Alice K. Lewis. Dr. Fitzgerald, associate dean for student affairs, died June 18 at the CV/PH Medical Center in Plattsburgh at the age of 45. She had been a member of the College faculty since 1961, and associate dean since 1968. Miss Lewis died August 14 at the Kingsway Arms Nursing Home in Schenectady at the age of 77. Miss Lewis joined the faculty in 1939 as an associate professor of English. She became dean of women in 1940, and associate dean of students in 1954. She retired from the College in 1964.

GARRANT TITLE IX COORDINATOR

The Family Educational Rights and Privacy Act, commonly called the Buckley Law, guarantees students the right to inspect and review any and all official records, files and data directly related to them, and to deny access to those records to other persons, except in limited and specified circumstances. Students who wish to review their records at Plattsburgh State are asked to schedule appointments through the College Title IX Coordinator, Don Garrant, in the Office of College Relations (eighth floor, Kehoe Administration Building). Requests should be in writing and should specify the records to be reviewed.

FIRST FULL-TIME HOCKEY COACH NAMED

The former assistant hockey coach at Rensselaer Polytechnic Institute in Troy and a former All-American at the University of New Hampshire has been selected as Plattsburgh State's first full-time hockey coach and coordinator of ice skating programs. Louis J. Frigon, a native of Montreal, will guide the Cardinal sextet in their move up to Division II during the 1976-77 season, and will also be responsible for the promotions of public hockey and figure skating schools which are expected to get underway at the College next summer. A five-member search committee recommended Frigon from among four finalists and almost 100 applicants seeking the position.

Frigon, 28, was head coach of RPI's Division I junior varsity squad during his two years as assistant varsity coach. He holds the ECAC single season scoring record, which he established as a senior at New Hampshire. He has three seasons of professional playing experience in the International Hockey League.

He retired from the Presidency this summer. The Foundation is a non-profit organization of College and community persons who receive and administer funds which are used primarily to provide student scholarships.

PLATTSBURGH ATTORNEY LOUIS WOLFE APPOINTED TO COLLEGE COUNCIL

Governor Hugh Carey has appointed local attorney Louis E. Wolfe to the Plattsburgh State College Council. Wolfe, 43, is a Plattsburgh native with a long history of voluntary and elected service to the people of Clinton County. He is named to the council seat being vacated by Robert T. Booth, whose term has expired.

"We are very fortunate that Governor Carey has approved our nomination of Louis Wolfe to our College Council," said College President Joseph C. Burke. "During my three years in Plattsburgh I have come to regard him as a man with great energy and drive who is dedicated to the ideals of public service. I look forward to working closely with him and benefiting from his counsel on the issues facing the College."

Members of the College Council serve nine-year terms, without remuneration. Among the major duties and responsibilities of the nine-member Council are establishment of rules and regulations governing student conduct and behavior, review of proposed budget requests for the institution, and development of regulations governing the care, custody and management of Plattsburgh State's buildings, grounds and equipment.

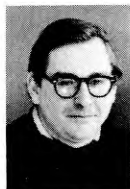

Wolfe has recently been appointed chairman of the New York State Commission on Sports and Olympics. He was elected in May to the Plattsburgh City School District Board of Education, is chairman of the Clinton County Bar Association, and is a member of the State Democratic Committee. He was a candidate for the United States Congress in 1960, served as Town of Plattsburgh Attorney from 1961 through 1964, was a member of the State Assembly from 1964 through 1968, and was City Judge for the City of Plattsburgh from 1970 through 1972.

MORE THAN 1,000 STUDENTS REGISTERED IN S.A. VOTER DRIVE

By early Wednesday afternoon, more than 1,000 students had visited an S.A. sponsored voter registration booth and registered to vote in the November national elections. Another 200 students have obtained registration forms at the booth and plan to register on their own, according to Student Association President Thomas Crosby. The S.A. established its voter registration booth in the Saranac Hall Bookstore and has staffed it with volunteers from the student body and the Plattsburgh League of Women Voters.

KOKOSZKA NAMED EXCHANGE SCHOLAR

Dr. Gerald F. Kokoszka, professor of chemistry, is one of 21 scholars from 18 SUNY campuses who have been named Faculty Exchange Scholars this fall by State University Chancellor Ernest L. Boyer. Faculty Exchange Scholars are members of the SUNY faculty who are recognized by their academic peers as being eminent in their disciplines. They are nominated as Exchange Scholars by their colleagues, recommended for appointment by the University Faculty Senate, and appointed by the Chancellor.

Dr. Kokoszka is the second member of the Plattsburgh faculty to earn the honor of Faculty Exchange Scholar. Dr. Vladimir Munk, professor of biology, was among the original 84 SUNY faculty who received the title in 1974. There were no appointments in 1975. The title of Faculty Exchange Scholar is not an academic rank, but an honor. The title is awarded for life-time. The Scholar Exchange program was initiated to enhance the

scholarly growth and standing of academic departments who invite the scholars to their campuses. Visits may last from one to three days, by agreement between the scholars and the host departments.

VICE PRESIDENT ACETO TO COORDINATE COLLEGE DIVISION OF UNITED WAY EFFORT

Dr. Thomas Aceto, Vice President for Student Affairs, has been named chairman of the College Division of the 1977 Clinton County United Way Fund Drive. As chairman, he will coordinate efforts to raise a total of at least \$18,200 in contributions and pledges from students, faculty and staff at Plattsburgh State and Clinton Community College. Plattsburgh State's goal will be to collect \$16,500 (\$15,000 from faculty and staff, \$1,500 from students), while Clinton Community College will work toward a total goal of \$1,700. The College at Plattsburgh achieved 105 per cent of its \$14,000 goal last year, and contributed \$14,662.30 toward the total of \$15,714 which was raised in the College Division of the 1976 United Way Drive.

The Clinton County United Way supports 14 local agencies which provide services to virtually thousands of Clinton County citizens in every age group. The total goal for this year's United Way campaign is \$221,400. The fund drive begins October 1, and persons who wish to work on the College effort are invited to contact Dr. Aceto at 564-2280.

S.A. BOOK-SWAP REPORTS \$2,000 BUSINESS IN SIX DAYS

The Student Association has organized a Book-Swap this fall to provide the mechanism for students to buy and sell used books at a centralized location. Operating from the music room in the College Center, the Book-Swap has reported approximately \$2,000 in total sales in its first six days. The service will continue through September 24. Used books in serviceable condition are priced at 60 per cent of their established retail cost, with proceeds returned to the seller. A 25¢ per book additional fee will pay the salary of the Clinton County senior citizen (a retired Certified Public Accountant) who has been hired to manage the accounts for the Book-Swap.

PARDON OUR ERROR — HINES TITLE IX COORDINATOR

Weekly was in error with an item in the September 9 issue which identified Donald Garrant as the College's Title IX Coordinator. Garrant is charged with the responsibility for receiving requests and scheduling appointments for students who wish to review their official College records, files and data within rights established by the Family Educational Rights and Privacy Act (The

Buckley Law). Written requests for review should be directed to Garratt in the Kehoe Administration Building.

Title IX commonly refers to that portion of the Educational Amendments of 1972 which prohibits discrimination because of sex. College Personnel Director Thomas Hines has the responsibility for ensuring the College's compliance with those regulations, and will receive any complaints alleging sex discrimination on the Plattsburgh campus.

H.E.W. FUNDS UPWARD BOUND FOR 1976-77

Plattsburgh State's Upward Bound program has received a \$75,000 grant from the Office of Education in the Department of Health Education and Welfare. The grant will finance Upward Bound operations from September through June, and application has been made for additional operating funds to support the Upward Bound summer program in 1977.

Upward Bound currently serves approximately 100 senior high school students from Clinton, Essex and Franklin Counties. Its program is designed to develop interests and learning skills which will motivate educationally or economically disadvantaged high school students to continue with some type of post-secondary education. Upward Bound comprises a residential summer program (operated at the Plattsburgh campus) and a series of winter visitations which make counseling and tutorial services available to students in their own schools. Thomas Moran directs the program from offices in Hood Hall. It operates under the College's Student Affairs Division.

BE AWARE OF OPEN CONTAINER AND ALL-NIGHT PARKING BANS

Students, faculty and staff can avert possible fines and imprisonment by obeying the City of Plattsburgh's open container and all-night parking laws. All-night parking has been prohibited on Plattsburgh City streets since 1970 by a law which bans parking from 2:00 until 6:00 a.m. City Police have begun strict enforcement of that law this fall to facilitate street cleaning operations. Cars parked on City streets between 2:00 and 6:00 a.m. are presently being tagged with \$5 parking tickets, and police expect to begin towing illegally parked cars (at a cost between \$17.50 and \$20) within a week. The regulation takes into account all City streets and parking areas with the exception of the City lot on the south side of Broad Street at the intersection with Durkee Street. Police Capt. Leo Connick suggests that persons residing off campus make arrangements to park their automobiles in private lots, such as those owned by neighborhood service stations.

Carrying alcoholic beverages in open containers on public highways, streets, sidewalks and other areas open to the general public is also a violation of Plattsburgh City Laws. First offenses are punishable by \$25 fines or ten-day jail sentences, and subsequent offenses may be punished by \$50 fines, 30-day jail sentences, or both.

UNITED WAY CAMPAIGN BEGINS — CAMPUS GOAL \$16,500

Volunteer solicitors have begun canvassing the campus for support of the 1977 Clinton County United Way fund drive. Vice President for Student Affairs Thomas Aceto, chairman of the campus fund drive, will direct the effort to collect \$16,500 in contributions from Plattsburgh students, faculty and staff. "Our campus community surpassed its 1976 goal with a total United Way contribution of \$14,662," said Aceto. "We have set our sights even higher this year, but I am confident that our goal is within our reach if we are all generous in making our 'fair share' contributions." The United Way is the only fund drive officially recognized on the Plattsburgh campus. Employees of the College may take advantage of a system of payroll deductions to achieve their contributions without making a single, large cash payment. Fourteen public service agencies benefit from United Way support, and every dollar raised in the local campaign remains in the County. Campaign literature to be distributed on campus describes the drive and the agencies in detail.

NEW COLLEGE LIBRARY NAMED IN MEMORY OF BENJAMIN F. FEINBERG

Plattsburgh's new college library, like its predecessor the current Feinberg Library on Beekman Street, will be named in memory of the late State Senator Benjamin F. Feinberg. At their regular monthly meeting yesterday, the State University Trustees approved a recommendation from the Plattsburgh College Council suggesting dedication of the new 500,000-volume library in Senator Feinberg's memory. The College will move its library resources to the new building next summer.

A North Country native and father of current Clinton County and Family Court Judge Robert J. Feinberg, Benjamin Feinberg was the sponsor of legislation which established the State University of New York in 1948. Earlier, in 1942, Senator Feinberg authored the legislation which changed the status of nine Normal Schools in the State (among them the Plattsburgh Normal School) to full-fledged colleges for teacher preparation with first-time authority to grant baccalaureate degrees. "With his farsighted wisdom and dedication to the ideal of public higher education in New York State, Benjamin Feinberg was the motivating force behind establishment of this State University system," said College President Joseph C. Burke. "We are proud that a native of our area has established this University as his legacy, and we are honored to name the most vital building on our campus in his memory."

GRANT AND CONTRACT TOTALS UP 68% IN ONE YEAR

According to a report issued this week by Dr. Harold Perkins, Dean of Graduate Studies and Research, the dollar value of grant and contract activity on campus has increased an estimated 68 per cent in one year. During the one-year period which ended August 31, 1976, 27 research proposals were funded on the Plattsburgh campus for a total dollar value of \$587,676. Though official, detailed records were not kept during the previous one-year period (Dr. Perkins assumed the new deanship September 1, 1975), the best information available from the SUNY Research Foundation computer shows that 14 proposals were funded for a total of \$349,284 during the year ending August 31, 1975.

Of 60 research proposals submitted by Plattsburgh faculty members during the past year, 27, or 45 per cent, have been funded (action is pending on seven proposals). Eighteen separate agencies are involved in funding the proposals, and 43 faculty and three students have been involved as project directors on the funded research.

ADMISSIONS REPORTS 1688 NEW STUDENTS

With "no shows" and withdrawals accounted for, the College admissions office reports a total of 1688 new students enrolled at Plattsburgh State this fall semester. The admissions goal for the fall was 1,650 new students.

Plattsburgh State contributions to the 1977 Clinton County United Way fund drive totaled \$2,264 at the end of the day Tuesday. "We have achieved 14 per cent of our \$16,500 goal for the 1977 United Way fund drive," said campaign coordinator Thomas Aceto. "We have a great deal of work ahead of us, but a unified, campus-wide effort should yield our goal and more." The drive continues through November.

STRAW POLL SHOWS SPLIT BALLOTS AND TIGHT PRESIDENTIAL RACE

Prefaced by the qualifiers that: 1) our sample was limited to the readers of *Weekly*, and 2) our response was relatively low (89 persons responded), following are the results of the straw poll offered in last week's issue.

For President: 51.7 per cent favored Jimmy Carter; 39.3 per cent favored Gerald Ford; 5.6 per cent favored other candidates; 3.4 per cent were undecided.

For U.S. Senate: 56.8 per cent favored Daniel Patrick Moynihan; 30.7 per cent favored James Buckley; 4.5 per cent favored other candidates; 8.0 per cent were undecided.

For U.S. Congress: 69.8 per cent favored Norma Bartle; 25.6 per cent favored Robert McEwen; 1.2 per cent favored other candidates; 3.5 per cent were undecided.

For State Senate: 87 per cent favored Ronald Stafford; 6.0 per cent favored John Hall; 1.2 per cent favored other candidates; 6.0 per cent were undecided.

For State Assembly: 68.2 per cent favored Robert Garrow; 22.4 per cent favored Andrew Ryan; 1.2 per cent favored other candidates; 8.2 per cent were undecided.

One note of interest: our straw poll reflected an extremely small number of strict, party line voters. We thank all of you who participated, and urge all of our readers to exercise their franchise at the polls Tuesday.

DR. LORRAINE PHILLIPS APPOINTED HEAD OF NURSING

The new chairperson of the department of nursing is Dr. Lorraine Waters Phillips, who arrived on campus Monday from the University of New Hampshire. Dr. Phillips holds diplomas and degrees from the Hospital for the Women of Maryland (diploma), Duke University (B.S.N. Ed.), the University of Washington (M.N.), and Boston University (D.N.Sc.). Her experience in the field includes staff positions as a medical-surgical nurse, an operating room nurse and a psychiatric nurse. In education she has held faculty positions at the University of Washington, the University of Vermont and the University of New Hampshire.

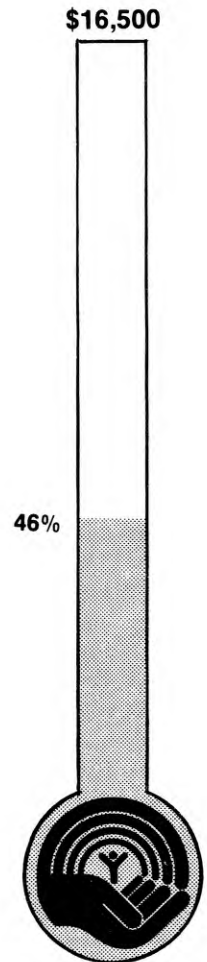

At New Hampshire, where she has been a member of the faculty for the past two years, Dr. Phillips was project director for a federally funded curriculum study and revision. That project resulted in revision of the UNH nursing program from a traditional curriculum oriented toward a medical model to a fully integrated curriculum oriented to the nursing process. The new curriculum has received full accreditation from the National League of Nursing for eight years — the maximum accreditation period. Just before leaving UNH, Dr. Phillips completed a grant proposal for the Department of Health Education and Welfare proposing establishment of a new laboratory resource facility to support the University's revised program.

UNITED WAY FUND DRIVE STILL BELOW 50% OF GOAL

With approximately three weeks remaining in the campus fund drive for the Clinton County United Way, faculty and staff contributions this week totaled approximately 46 per cent of the goal of \$15,000. The student goal of \$1,500 brings the total campus goal for fund drive contributions to \$16,500. "We need a very positive, sincere effort on the part of faculty and staff to attain our goal of support for the fourteen vital Clinton County agencies which derive operating funds from the United Way," said campus campaign coordinator Thomas Aceto. "To date, fewer than one in four members of the faculty and staff have given true meaning to their support for the philosophy of a community helping its own. Those contributors have enabled us to reach nearly half our goal. A real show of support from those who have not yet contributed can enable us to surpass our goal, but that support must be forthcoming soon — hopefully within the next dozen days before we recess for Thanksgiving."

Collections to date are reflected in the following chart:

GOVERNOR APPOINTS ASSEMBLYWOMAN AMATUCCI TO COLLEGE COUNCIL

Governor Carey has appointed Ms. Jean Amatucci of Huguenot, New York, to the Plattsburgh State University College Council for a term ending in 1985. Ms. Amatucci was the College's 1976 Alumnus-of-the-Year and was elected to her second term in the State Assembly November 2. She is appointed to the Council seat formerly occupied by Franklin Forbes, who declined reappointment to a nine-year-Council term. "We have lost a valued Council member as Franklin Forbes' 15 years of service come to an end," said College President Joseph C. Burke, "but we are fortunate that Governor Carey has chosen a person of Jean Amatucci's energy and ability to serve in our behalf. Mr. Forbes has been an influential member of our Council throughout his term, and his service to the College has extended beyond the realm of expected Council responsibility." He continues as a director of the Plattsburgh College Foundation.

"During her freshman term in the Assembly Ms. Amatucci has earned a reputation as one of the hardest working, most resourceful persons in State government. The people she represents in Orange and Sullivan County acknowledged that fact with their overwhelming support at the polls, and her fellow Plattsburgh Alumni recognized her dedication with their highest honor. We look forward to her legislative acumen as one of many qualities which she will bring to our Council," said Dr. Burke.

IMPACT OF QUEBEC SEPARATIST VICTORY TO BE DISCUSSED THIS AFTERNOON

The impact of that election will be the topic of an open discussion this afternoon at 3:30 p.m. in Room 200 of Yokum Communications Lecture Hall. All interested persons are invited to attend and participate. Members of the College's faculty in Canadian Studies will lead the discussion.

CAMPUS UNITED WAY DRIVE REACHES 63% OF GOAL

The campus fund drive for the Clinton County United Way reached 63 per cent of its 1977 goal this week as 93 new contributors added another \$2,500 in donations. Collections from faculty and staff now total \$9,378 toward a goal of \$15,000. Solicitors hope to raise \$1,500 among students to achieve an all-College contribution of at least \$16,500.

Compared with the United Way campaign conducted on campus last year, the 1977 drive has fewer contributors to this point, but they have been more generous. United Way coordinator Thomas Aceto is pleased with the 11 per cent increase in the average gift, but discouraged by diminished participation in the drive. "I am aware of a number of factors which may make it more difficult for faculty and staff to support this year's drive," Aceto said yesterday, "but I would encourage anyone who hasn't yet contributed to review again the many services provided by Clinton County United Way agencies. Those services are available to all of us and all of our families, and I feel we have an obligation to support the United Way agencies which provide them."

Twelve days remain until the end of the campus fund drive, and one-third of all faculty and staff have contributed. A total of half the College's faculty and staff contributed to the drive which surpassed last year's United Way goal.

UNITED WAY EFFORT AT 72% OF GOAL; AVERAGE GIFT UP CONSIDERABLY

"The contributors who have supported the United Way Fund Drive on campus this year are to be commended," fund drive coordinator Thomas Aceto said this week. "Despite the realities of inflation and no pay increases, they have made the sacrifices which have raised our average gift to \$28.50 — more than \$3.00 above last year's average gift. Our problem this year lies with a significant lack of participation." Only 39 per cent of all faculty and staff had donated to the United Way campaign as of Wednesday, compared with 52 per cent participation one year ago.

Faculty and staff have contributed \$11,426 to the 1977 fund drive (76% of their goal) and students have contributed \$424 (28% of their goal) for a total of \$11,851 toward a \$16,500 goal. "We will make final collections from all of our solicitors in the coming

week," Aceto said. "I urge anyone who has lost or failed to receive their fund drive materials to contact me directly. I would also ask persons who have not yet donated to reconsider making some gift, no matter how small. A \$7.50 contribution per person from all those who haven't contributed — roughly 15 cents per week — would put us over our goal."

State Senator Ronald B. Stafford (R. Peru and chairman of the Senate Committee on Higher Education) told *Weekly* Tuesday that "There are opinions which differ with the position that the State budget will be \$1-billion in the red unless we adopt major program cuts." Governor Carey predicted the budget shortfall at a Monday press conference, but refused to specify which state programs might be affected by cuts he will propose. Sen. Stafford continued, "If, indeed, there is a lack of funds, I think we must take a close look at more recent demands on the State dollar before we even consider cutting back on high-priority commitments which were made long ago. Education in all its aspects, including State University, must be considered one of those top priorities of the State of New York. I feel that we must meet our commitment to maintaining a viable State University."

The Governor will send his budget proposal to the Legislature January 18.

State University College at Plattsburgh • Dec. 16, 1976

NO DEFINITIVE WORD YET ON BUDGET PROSPECTS

To date, no word has been received from State budget officials about the prospects for the College's budget for the 1977-78 fiscal year, beginning April 1. President Joseph C. Burke told the College Council Monday that the SUNY Trustees have requested an allocation of \$14,359,000 for Plattsburgh in the Governor's Budget. The request is an increase of 3.8 per cent over the College's \$13,827,000 budget for the current fiscal year. Approximately half of the budget increase would pay for strengthening existing programs and the remainder would offset fixed cost increases.

Some advance word relative to the figure that has been inserted in the Executive Budget may be given to College authorities prior to January 18, the date on which the Governor is scheduled to make his budget public.

BAUM TO ADDRESS COMMENCEMENT... 'WHAT ON EARTH ARE WE DOING?'

Dr. Stuart J. Baum, one of two Plattsburgh State faculty members chosen to receive Chancellor's Awards for Excellence in Teaching last spring, will deliver the featured address at winter commencement exercises Wednesday (December 22). Titled "What on Earth are We Doing?!", Dr. Baum's address is intended to alert his audience to the potential ramifications of some current types of scientific research. "Roughly 90 per cent of our graduates are not science majors," explained Dr. Baum, an associate professor of chemistry. "I fear those non-scientists may not be aware that current genetic research involving such things as cloning and gene grafting is only one step away from the production of hybrid, test-tube forms of life. It's time more non-scientists became involved in discussions of this research, and that's the point I hope to make Wednesday."

Dr. Baum and Dr. Richard Beach (who will deliver the summer commencement address) were chosen last year as the first two Plattsburgh faculty members ever to receive SUNY Chancellor Ernest L. Boyer's Awards for Excellence in Teaching. "Dr. Baum's selection for the Chancellor's Award characterizes the high regard in which he is held by students and faculty on the Plattsburgh campus," said President Burke. "It is most appropriate that a faculty member whose teaching has received such recognition should deliver our commencement address, and we are honored that he has accepted our invitation to speak."

FEW ATTEND FIRST PUBLIC COUNCIL MEETING

A very small gallery took advantage of the first opportunity to witness and participate in an open, public meeting of the Plattsburgh College Council. Held Monday in the College Center Ballroom — 19 days prior to the day when all public bodies must open their business meetings to the public under the State's new "sunshine" law — the meeting was attended by two reporters, one spectator who remained throughout, and a handful of students who stayed only briefly.

The Council gave unanimous approval to resolutions honoring Franklin Forbes (citing 15 years of valued service as a member of the Council) and Dr. Elinor Barnes (citing significant contributions to the CEC reading center during her tenure from 1965-1976). Louis E. Wolfe was approved as the Council's representative to the Board of Directors of the Plattsburgh College Foundation, replacing Forbes. President Burke's report to the Council included an update on the Plattsburgh State budget (see first item, this issue); a negative reaction to the Regents Master Plan for Higher Education; and an explanation of the duties of the Wessell Commission, which has been appointed by the Governor to make recommendations on the future of higher education.

The Council also heard reports on a new system for registering students, on gift income received by the College Foundation, and on a continuing survey of Plattsburgh students' aspirations and achievements.

Season's Greetings

U.U. P. SCHOLARSHIP MEMORIALIZES JOHN DEEB

United University Professions, the bargaining agent which represents professional employees of State University, has established a \$300 John Deeb Memorial Scholarship with the Plattsburgh College Foundation. Dr. Deeb, professor of education at the College for 20 years, died September 30. The executive board of the local chapter of U.U.P. voted to establish the scholarship with a \$150 gift, and that gift was matched by a gift from the statewide organization. Plattsburgh Chapter President Richard Brogowski presented a check for the scholarship to President Burke during a brief ceremony Tuesday. Full criteria for the scholarship have not yet been decided, though Brogowski told *Weekly* Tuesday that the award is intended for a student in the education program.

COMMITTEE MOBILIZES TO PROVIDE SERVICES FOR DISABLED

An ad hoc committee comprising Dr. Robert Slauson (psychology), Lawrence Arcarese (educational research), Joseph Laramie (Upward Bound), Derek Allan (facilities planning), Michael Kerman (admissions) and Thomas Hines (director of affirmative action) has

formed to identify and deal with any physical and social barriers which may impede handicapped students at Plattsburgh State. Dr. Slauson explained that most of the impediments experienced by handicapped students result merely from lack of awareness on the part of persons who are not disabled, and he sees the major goal of the committee as raising that awareness. In its attempt to minimize or eliminate the obstacles which may obstruct the efforts of handicapped students on this campus, the committee solicits input from the students who experience those obstructions. If you are a disabled student experiencing difficulty at Plattsburgh State, or if you know a disabled student who is experiencing difficulties, we urge you to contact any of the members of the committee.

SENATE APPROVES PROPOSAL FOR M.S. IN SPECIAL EDUCATION

The Faculty Senate Tuesday gave its approval to a proposal for a new master of science program in special education. President Burke indicated yesterday that his approval would be forthcoming, and that the program proposal will be sent on to SUNY Central Office for action prior to final review by the State Educational Department.

The Senate also heard a report from its Faculty Affairs Committee and President Burke regarding consultation in respect to reallocation of vacant faculty positions. The Senate received, but took no action on, a report from its ad hoc committee to review the Faculty Bylaws. That committee reported that it found the Bylaws' present delineation of faculty governance units to be satisfactory.
